

April 12, 1973

get one new set two years from now and it was my suggestion to the Executive Board and to Senator Carpenter that that really wasn't what you wanted. What you really want two years from now are two sets of updated volumes and it is our thought that this bill will do this so that you can keep two sets of statutes current rather than getting one set of statutes every two years and having the two sets you previously had become obsolete.

SPEAKER: Senator Carpenter.

SENATOR CARPENTER: Are there any questions of the clerk? If not, I move the bill be advanced from General File to E & R for Initial.

SPEAKER: Mr. Clerk, are there any amendments to the bill?

CLERK: None.

SPEAKER: Motion has been made to advance LB 572, is there any further discussion? Now are you ready for the question? All those in favor of advancing the bill say, vote aye, all those opposed vote no. This requires 25 votes. Clerk will record.

CLERK: 25 ayes, Mr. President.

SPEAKER: The bill is advanced. Now we have gone through this list and the chair suggests that any Senators who really feel, deep down inside, that their bill is noncontroversial as far as the chair is concerned, we will now put them on the list unless there is some objection to proceeding in that manner so chair will first ask is there any objection to proceeding that way? If not, we will so proceed but first of all I would like to recognize some visitors. Under the north balcony, they are students from the University of Panama, Niguelle Burarro, Miss Itsell Brainscum and their escort William Daniels. We're pleased to have you visiting the Nebraska Unicameral. All right, now we have 297. Now who else wants a bill? Senator Moylan.

SENATOR MOYLAN: 487 I think would be very noncontroversial.

SPEAKER: 487, it's on the list.

CLERK: Senator Waldron will take 435.

SPEAKER: Senator Waldron. 435. Anybody else? Senator Carpenter.

SENATOR CARPENTER: May I suggest as your assistant when we get through with those bills that we suspend the rules unless somebody objects and attempt to pass the bill for Monday on Final Reading. Monday could be quite a busy day with the budget and other things which we might save some money and some time. We may not have enough here, I don't know.

SPEAKER: All right, well let's go through the noncontroversials and then we'll take that up. That's okay. Now is there anybody else who has a noncontroversial bill who wants to put it up here at this time. Senator Waldron.

SENATOR WALDRON: LB 438.

SPEAKER: LB 438. Anybody else. Senator Clark.

SENATOR CLARK: We should take up an amendment on 30...

SPEAKER: An amendment on what, Senator?

SENATOR CLARK: On Final Reading there's a 36 that I'd like to take back to Select File for specific amendments.
